

SJÚKRAHÚSIÐ Á AKUREYRI
AKUREYRI HOSPITAL

Solutions for Well-Tech cluster

Halldór S. Guðmundsson, general manager for
Akureyri nursing homes

Sigurður Einar Sigurðsson, Medical director
Akureyri hospital

Care planning is complicated and involves many different stakeholders and worksites

- Isolated systems
- Limited collaboration
- Procedures **on paper**
- Staff turnover and shortage
- Cultural and language barriers
- Younger carers want easy-to-use mobile solutions
- Greater emphasis on cost efficiency

MEMAXI is a hub that connects all stakeholders and systems in an integrated and person-centered solution

- Central overview and information in one place
- The beneficiary is informed and involved
- Person-centered care plans
- Increased and easy communication saves time
- Video calls
- Paperless care procedures
- Information exchange with other care providers
- Simple and intuitive to use

EHR

- Sagan common EHR
- Central pharmaceutical database
- Alfa
- Therapy
- Heilsuvera Patient portal

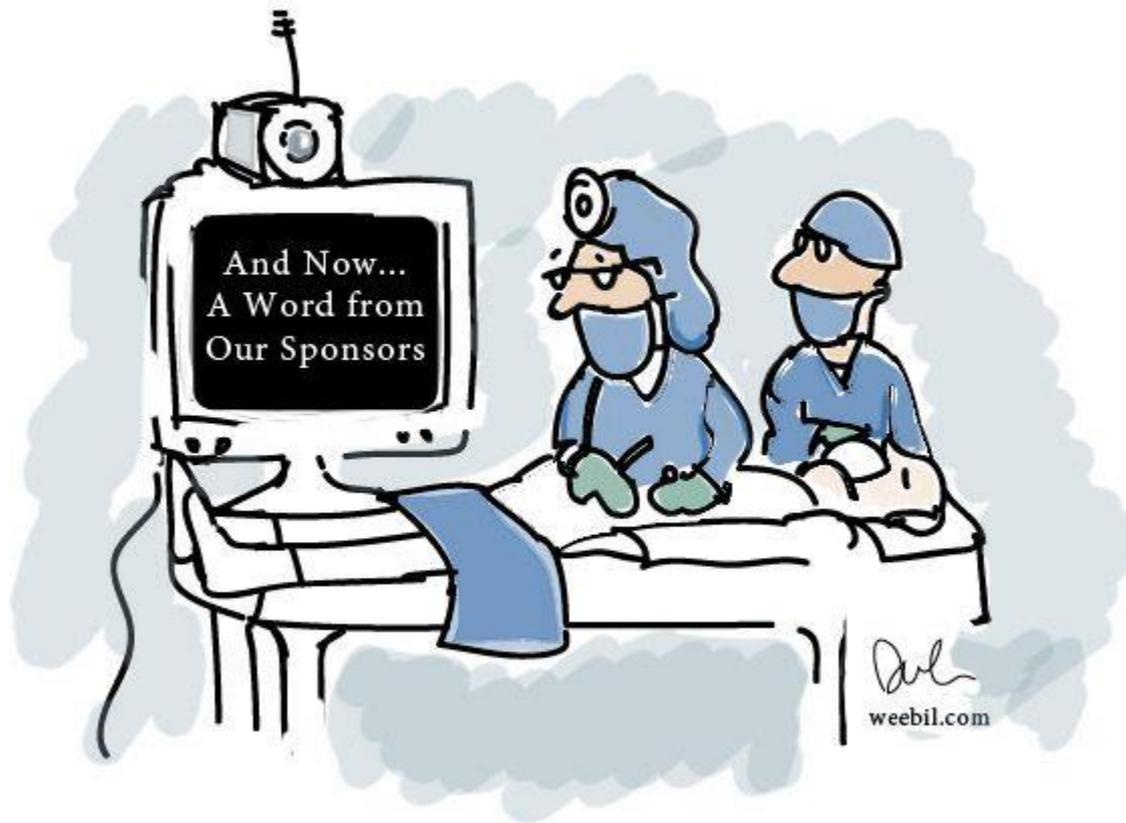

Covid-19

- Use of IT and telemedicine
- Working together
